

## APN PROFILE INSTALLATION AND REMOVAL

### PROFILE INSTALLATION

1.) Open the direct link required for manual installation of profile: (*WiFi might be required*)

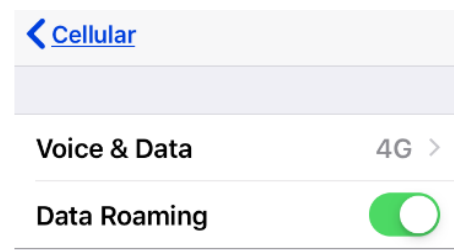

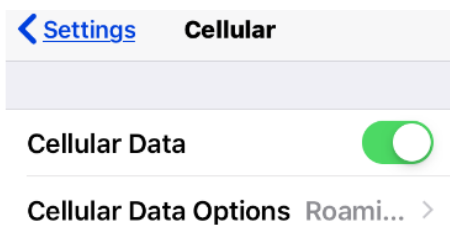

2.) When prompted, select allow to begin the installation process. Follow the onscreen prompts to install the profile:

3.) To turn cellular data On, go to Settings, then tap Cellular or Mobile Data.

4.) Under Cellular Data Options, turn Data Roaming On.

## APN PROFILE INSTALLATION AND REMOVAL

### PROFILE REMOVAL

Once Profile is no longer required, please follow the below steps to remove.

Go to Settings, General, then select Profile and tap Remove Profile.
