

GLOBALGIG INSTANT OFFICE SOLUTION

Complete Office-in-a-Box Kit with Wireless WAN Connectivity

Need An Immediate Office Set-Up With Connections To The Internet Or Corporate Office?

Globalgig's Instant Office solution delivers the hardware and out-of-the-box wireless connectivity for businesses looking to set up an office quickly and seamlessly. Today's business operates in a network connected environment. In areas where terrestrial fiber, cable or wireline infrastructure is not available or not cost-effective, wireless service can provide the broadband connection needed to keep crucial operations online.

When faced with the challenges of secured network communications in hard-to-reach places, Globalgig makes network connectivity easy. Instant Office is delivered with the equipment, rack, power, switch and most importantly, an immediate wireless network connection. Instant Office is configured and shipped with an active SIM card, delivering high-availability, secured wireless broadband connection from day one.

Communications Solution that Works for Your Business

Globalgig's Instant Office solution can be leveraged for temporary and remote locations such as:

- Construction sites where network infrastructure is not yet available
- Outlying offices with long lead-times for wireline service delivery
- Sites inaccessible by traditional networks such as oil fields and drilling sites
- Temporary events that need rapid install and tear-down of network access

Instant Office is the robust, compact and rugged office-in-a-box solution that will keep your offices and employees connected even in the toughest-to-reach locations.

Customized Data Plans and Data Usage Management

Instant Office is bundled with scalable wireless data plans. Affordable data packages are available and can be customized to meet the unique requirements for each application. Long-term contracts are not required as flexible terms are available. Globalgig's Instant Office solution is bundled with the Orchestra Portal that give businesses the ability to easily manage data plans and monitor data usage for each device.

Globalgig's Instant Office is Global

Globalgig is a multi-country MVNO (Mobile Virtual Network Operator) with a patented SIM technology that enables local wireless connections in over 200 countries. This gives businesses the ability to leverage Globalgig's Instant Office internationally, without the hassles of managing multiple vendors and paying invoices in numerous currencies. Outside of the U.S., a combination of 3G/4G services are available for Instant Office.

Field-Hardened for Tough Environments

What's Included

- Wireless router with activated SIM for instant wireless WAN connectivity and WiFi functionality
- 5-port 10/100 Ethernet switch
